

DOMAINE JACQUES PRIEUR

Beaune Grèves Premier Cru 2023

Vintage 2023

"Green harvest at the end of July + summer temperatures at the end of August = very good quality potential for the 2023 harvest".

After a very mild, dry winter, the vines were soon active again. The first green tips were observed at the end of March.

The development of the vegetative cycle was slowed by very cool weather in April and the second half of May.

Bright sunshine and high temperatures in June reawakened the vegetation, and the vines began to grow rapidly. Closing of the bunches (around July 1) took place only 3 weeks after the mid-flowering stage. High water levels during the summer, combined with gloomy, almost autumnal weather in the first two weeks of August, slowed down veraison and ripening, but miraculously the weather changed radically around August 20 and conditions became summer-like again. The grapes ripened very quickly under the scorching temperatures, provided the overloaded vines had been unloaded.

Harvesting at the estate began on August 31 for Chardonnay and September 9 for Pinot Noir

GRAPE VARIETY & PLOT SIZE

Grape variety : 100% Pinot Noir on a 1.17 hectare plot

TERROIR

Beautiful vineyard plot overlooking the city of Beaune.

Clay-limestone soil with a predominance of Grèves (small pebbles) and sand. The silica in the sand stores warmth from the sun and is an important factor in ripeness. The wines are noted for their elegance and fruit.

VINIFICATION & AGEING

The grapes were handpicked into small crates, then sorted and totally destemmed. The wine stayed on the skins for 17 days in temperature-controlled open oak vats. Pigeage (punching down the cap) was done twice a day during alcoholic fermentation.

100% malolactic fermentation. Entirely aged in oak barrels.

Duration of ageing : 18 months

Organic Wine
