

DOMAINE JACQUES PRIEUR

Puligny-Montrachet Les Combettes Premier Cru 2022

Vintage 2022

"Warmest year since the beginning of the 20th century. Strong vine resilience"

Despite a water deficit that began to be felt at the end of winter and high temperatures from May onwards, the vines developed very rapidly and by May 26, flowering was complete. 2022 reached the same level of earliness as 2020 at this stage.

Rainfall in June (120 mm on average) compensated for some of the lack of water, and the hot summer did not block the vine cycle.

Veraison was completed around August 15/20, and the few millimetres (20 mm) of rainfall in mid-August helped the grapes reach full ripeness.

Harvesting began on 29 August.
